RE: POSTING OF SOME 2020 TRAINEES WITH 2019 BATCH

You will recall that the Ministry of Health opened the posting portal for 2019 batch of nurses and midwives to apply for placement in the various Agencies including the Ghana Health Service.

However, during screening at the various Regional Health Directorates, it was detected that about 125 Registered General Nurses and Midwives who passed their licensure examination in 2020 and completed rotation in 2021 as well as 42 Nurse Assistants who passed their licensure in 2020/21 had been included. In view of the fact that these trainees were not part of the 2019 batch, their postings were suspended.

Nevertheless, this office has been informed by the Ministry of Health that these trainees were added because the number of 2019 batch of nurses and midwives fell short of the number on Financial Clearance secured from the Ministry of Finance. The Service has therefore been requested to post the affected trainees.

Consequently, you are kindly requested to post the affected trainees accordingly.

Thank you.

DR. PATRICK KUMA-ABOAGYE
DIRECTOR-GENERAL, GHS
